OLD BUSINESS:

- Community Map Project- Display Update – No update
- Adopt a Spot - Mr. Saunders spoke on behalf of the Adopt a spot with the invasive horsetail.

They received a donation of top soil and plan to clear out the horsetail as much as possible. He met with Daniel Edwards the week prior before Daniel went on vacation. They also want to include the rotary club and chamber of commerce sign. Mr. Saunders gave the signage location proposal to the committee. They are looking to have one facing hazard, one facing phoenix and one facing the highway.

One of the rotary club members has a water truck so they can water the area. They are also looking to install solar lights at the location.

In the event their plan does not keep the horsetail down with the plastic, they have a landscaper that could come in and remove everything.

Ms. Gaskell questioned how different the landscaping proposal is from what is currently there.

Mr. Saunders stated the bushes will remain because they are in good shape. They may eventually do flowers or other plantings, but for the most part, the location will look the same.

Mrs. Ladd said she drives around and looks at the town landscapes, the shopping center across the way has beautiful planters outside, so if the rotary club was stuck deciding on landscape ideas, they could use the large planters.

Ms. Gaskell questioned what the status on the signs.

Mr. Saunders stated he was waiting for the meeting to see if the committee had any issues with three signs and for Mr. Edwards to return from vacation to start the process. There were three signs originally with the previous owner and they are requesting three new signs.
